## VINYL SELF-ADHESIVE LABELS

Vinyl can be supplied in a matt or gloss finish which allows excellent print quality.

It is easy to write on and durable as it is water resistant and weather proof. It can be supplied in numerous adhesives and colours.

## PLASTIC TAGS

This plastic tags is a 200 micron non-tear plastic which is clay-coated to give a very smooth matt finish which allows excellent print quality.

Easy to write on, it has very high burst strength so it often requires no reinforcement on the hole. The material is suitable for die cutting or putting a slot in. It is water resistant and weather proof.

Tags made from this plastic can be left outside for months at a time. The base material is white and we can print 6 standard colours from stock - red, yellow, green, blue, orange and pink. Any other colour you require will be printed to order.

## 3D DOMED BADGES AND DOMED LABELS

Product and company branding is a key part of designing and successfully marketing a product. It is essential that your logo stands out from the rest. Make sure you stand out with our 3D domed badges and domed labels.

At Images labels we can either screen or digitally print your logo onto; plastic, aluminium or stainless steel creating a bright, bold and colourful design.

This is then covered with a clear, high gloss polyurethane resin which provides the bubble domed badge effect creating a high quality prestige badge to promote your product.

With the ability to produce the domed badges with a suitable adhesive and material to ensure their durability for different applications, a domed label can be used in most industries including.
