ALUMINIUM NAMEPLATE

These aluminium nameplates are used on the back and the side of the vehicle as a rating plate to show measurement details.

The aluminium nameplates are silver in colour and can be anodised and digitally printed 1-4 colours to your specification with fixing holes or adhesive backing.

PLASTIC NAMEPLATE

These plastic nameplates are used on the back of the vehicle to advertise customer's details.

The plastic moulded nameplates come in a variety of colours and can be printed 1-4 colours to your specification with fixing holes or adhesive backing

VINYL SELF-ADHESIVE LABELS

These vinyl self-adhesive labels are used in many areas of the trailer industry on the side and rear of the vehicle to advertise customer's details.

These self-adhesive labels come in vinyl and are digitally printed in numerous colours and come in standard and high tack adhesive to your specification.

DOMED SELF-ADHESIVE LABELS

These domed self-adhesive labels are used in commercial vehicle industry on the bottom rail labels.

The domed self-adhesive labels come in a variety of colours can either screen or digatally printed creating a bright, bold and colourful design.

This is then covered with a clear, high gloss polyurethane resin which provides the bubble domed badge.

VEHICLE BADGES

We can supply high quality vehicle badges from exterior to interior – your automotive badging requirements.

Whether you require a bespoke injection moulded badge to identify vehicle models, or you're a modification company wanting to put your stamp on a newly modified or restored vehicle; Images Labels offer injection moulded grill badges, speaker badges, safety and warning labels and exterior quality chromed badges.

A 3D rendered badge of the word "LUTON" in a bold, sans-serif font with a metallic, brushed metal finish.A 3D rendered badge of the word "CITROËN" in a bold, sans-serif font with a metallic, brushed metal finish.

DIE CAST BADGES

These die cast badges are used in many areas of the commercial vehicle door on the bottom of the vehicle advertise customer's details.

With our 3D die cast badges, your logo can be raised from the background with either diamond cut or brushed metallic finishes, or the logo can be printed to your colour specification.

The 3D die cast badges are supplied with a permanent strong self-adhesive backing suitable for your particular application.
